

## Annual driving rain index

This map shows the annual driving rain index. Exposure gradings and local knowledge should be referred to when discussing design requirements.

Further information is available from the Technical Department.

Welsh//Slate

### UNITED KINGDOM

In general, any area within 30 miles of a west facing coast line is considered to be in a severe exposure area.

However, localised effects on any site must also be taken into consideration.

Further reference to BS 8104 is advisable to ascertain localised effects.

Map based on BS 5534.
