

Hips

MITRED HIP

Cover with a strip of underlay 600mm wide, overlapping general underlay. Cut slates neatly and accurately, bevelled edge down. Interleave with lead soakers to form a straight, weathertight, close-mitred junction. Fix soakers by nailing to battens at the top edge.

N.B. Careful consideration must be given to mitred hip details at low roof pitches and in areas of severe exposure - contact Welsh//Slate Technical Department

MITRED HIP SOAKER WIDTHS.

Pitch	Minimum Width at head
30°-35°	150mm
35° +	100mm
